NOTE:

- All rates for outpatient, inpatient and obstetrics services exclude anesthesia, DME, prescription drugs and/or physician fees.
- For all FA/NOCV plans: If total charges are less than the applicable % of Medicaid rate, the patient is only obligated to pay the the lesser of the two amounts associated with the designated Financial Aid Plan or NOCV - but never more than facility total charges.
- Referred Ambulatory and PST/APST services not listed on Medicaid fee schedule will be billed at respective percentage of facility charge amounts for FA/NOCV patients.
- If a patient cancels or is a no-show for an elective procedure and either the PST or APST was performed, the patient is financially responsible for those tests. The patient will be billed based on the applicable % of Medicaid rate associated with the patient's respective FA/NOCV plan, or % of total charges if Medicaid rate does not exist.
- Per NYS-DOH regulations, patient/responsible party will not be charged or billed for prenatal or pediatric ER/Clinic services registered under FA00 plan.
- Newborn rates will apply separately from mom. In the event of multiple births, individual rates will apply for each additional newborn.
- Medically-Necessary Implants/Chemo Drugs: In the absence of a Medicaid fee schedule, patients are responsible for the designated % of COST associated with their respective FA/NOCV plan.
- For all FA/NOCV plans, ROUTINE ancillary procedures are included in the clinic flat rate when ordered by facility physician at prior clinic visit.
- When an FA/NOCV patient returns for their ROUTINE ancillary test on a different day, the insurance code FANV should be used for FA patients, and NONV for NOCV patients.
- Services/Procedures that are not considered medically-necessary, and not reimbursed by Medicaid, are subject to Self-Pay rates at facility total charges - not FA/NOCV rates.
- Only emergency dental services are covered under the Financial Aid Program. All other dental services are subject to Dental Self-Pay Fee Schedule.
