

Outlook Exchange Coming February 2021

Exchange

We are very excited to announce that Medisys Health Network has partnered with

Microsoft for the upgrade of our email system from **GroupWise** to **Cloud-hosted Outlook Exchange**, coming this February 2021.

This transition is a step in the right direction as we move forward to a more technically savvy environment that allows end-users to benefit from a traditional Desktop or an on the go device such as a tablet or phone, always staying in touch and up to date on emails and updates via technology. This solution will offer a faster, more efficient way to navigate through your emails, calendar, and archives.

WHAT DO I NEED TO DO?

We will be sending vital information periodically to prepare you for this transition. It is important to pay attention for email announcements which will provide information and documentation on items requiring your attention.

We have also added a section on the intranet for a step by step "GroupWise to Cloud-hosted Outlook Exchange Resources" located here : <https://my.medisys.org/groupwise-to-outlook-exchange/>
